## FY 2017 USAID Title II Use of Funds

Use of Funds	
<b>Commodities</b>	Cost for purchase of commodities
<b>Ocean Freight</b>	Cost to ship from the U.S. to port of entry
<b>Inland Freight</b>	Cost to move commodities from the port of entry inland to destination or to border of landlocked country
<b>Internal Shipping &amp; Handling (ITSH)</b>	Cost directly associated with the transportation and distribution of commodities, includes storage, warehousing and commodity distribution costs; internal transport via rail, truck or barge transportation; commodity monitoring in storage and at distribution sites; vehicle procurement; in-country operational costs, and others, for the duration of a program
<b>Section 202(e)</b>	Meeting the specific administrative, management, personnel, storage, and distribution costs of programs; implementing income-generating, community development, health, nutrition, cooperative development, agriculture, and other development activities; and cash resources made available to FFP partners for enhancing programs, including through the use of local and regional procurement and other market based food assistance interventions.
<b>Other</b>	Includes funds for Section 207(f) including FEWS NET and monitoring and evaluation, the general contribution to WFP, Mission support, rent for facilities including prepositioning warehouses, and staff and administrative expenses. <sup>1</sup>

<sup>1</sup> The costs included in the *Other* category are not new costs for FFP. They have been added into the *Use of Funds* chart for FY 2017 in order to show the entirety of Title II costs, when in the past FFP has focused solely on commodity and costs associated with the programming and movement of commodities.

## FY 2017 USAID Title II Non-Emergency Activities: Summary Budget, Commodity, Beneficiaries and Tonnage

## FY 2017 Food for Peace Title II Congressional Mandates<sup>26</sup>

	MINIMUM	SUBMINIMUM	MONETIZATION	VALUE-ADDED	BAGGED IN UNITED STATES
<b>FY 2017 Target</b>	2,500,000	1,875,000	15.0%	75%	50%
<b>Final FY 2017 Level</b>	1,470,697	279,395	25.0%	24.2%	100%

<b>Minimum:</b>	Total approved metric tons programmed under Title II. Metric ton grain equivalent used to report against target.
<b>Subminimum:</b>	Metric tons for approved non-emergency programs through Private Voluntary Organizations and Community Development Organizations and WFP. Metric ton grain equivalent used to report against target.
<b>Monetization:</b>	Percentage of aggregate amounts of commodities distributed under nonemergency Title II programs that must be monetized. The monetization floor applies to nonemergency program tonnage.
<b>Value-added:</b>	Percentage of approved non-emergency programs that are processed, fortified, or bagged.
<b>Bagged in U.S.:</b>	Percentage of approved non-emergency bagged commodities that are whole grain to be bagged in the United States.
<b>Source:</b>	FFP Program Team

<sup>26</sup> Pursuant to Section 204 of the Food for Peace Act, the table above, along with USAID's overview section, constitutes FFP's report on the minimum and subminimum metric tonnage for FY 2017

## Monetization Rate of Return and Use of Proceeds

Monetization is the process of selling U.S. in-kind goods in local markets, then using the proceeds to fund development food assistance activities. Pursuant to Section 203(b) of the Food for Peace Act, USAID must monetize 15 percent of all U.S. in-kind food shipped overseas as Title II commodities for development. In FY 2017, USAID's Office of Food for Peace provided U.S. in-kind commodity costs plus freight to three partners to fulfill this requirement: \$7.4 million to CARE Bangladesh, \$16 million to World Vision Bangladesh and \$2.8 million to Helen Keller International (HKI) in Bangladesh

FY 2017 MONETIZATION FUNDS			METRIC TONS (MT)	Estimated Rate of Return
CARE	Commodity Costs	\$4,925,989	19,730 MT wheat	82.9%
	Freight Costs	\$2,485,132		
World Vision	Commodity Costs	\$10,638,132	42,580 MT wheat	82.5%
	Freight Costs	\$5,363,034		
HKI	Commodity Costs	\$1,880,015	7,530 MT wheat	82.5%
	Freight Costs	\$948,279		

The rate of return across all three programs is approximately 82.5 percent. Food for Peace has strategically designed its programming to ensure that monetization is used in the country of highest return where it is an appropriate tool. This is a set rate of return established with the Government of Bangladesh. The estimated rate of return for FY 2017 wheat provided—based on proceeds not yet received by the partners—is nearly 82.9 percent for CARE Bangladesh, and 82.5 percent for both World Vision and Helen Keller International, respectively.

For each of the contributions to the three eligible organizations, monetization proceeds were used to fund development programs designed to address food insecurity and malnutrition in Bangladesh.

- With FFP support, CARE Bangladesh partners with six national NGOs to implement community-level development activities throughout eight districts in the Haor and Char areas of northern Bangladesh. Monetization proceeds received in FY 2017 were used to fund activities that aim to strengthen household level agricultural practices, encourage microenterprise productivity, enhance disaster risk reduction, and improve health, nutrition, and water, sanitation and hygiene (WASH) conditions for women and children.
- HKI partners with two international NGOs, three local NGOs and coordinates closely with the government of Bangladesh to implement a multi-year development program in four sub-districts of Bandarban District. The program is designed to improve gender equitable food security, nutrition, and resilience among families in Bangladesh that are especially vulnerable to natural and man-made disasters. The monetization proceeds were used to improve maternal and child health and nutrition, promote healthy WASH practices and sustainable agricultural production, and support disaster risk management.
- World Vision is implementing a development program—in partnership with the UN World Food Program (WFP), an international NGO and three local NGOs—to improve gender equitable food security, nutrition and resilience among children, youth and pregnant and lactating women in two divisions in southwestern Bangladesh. The monetization proceeds were used to support maternal and child health and nutrition activities, in addition to WASH, livelihoods, disaster risk reduction and good governance interventions.
